

How to implement **DIGITALIZATION** in your company?

Step 1: Identify affected departments & name responsible

Note: all departments are affected!

Step 2: Outline the main process of Digitalization

1 Evaluate

Identify weaknesses and areas to be improved / replaced / removed

2 Develop

Create your Transformation Roadmap for customer-centric business model

3 Implement

Complete tasks and milestones outlined in Transformation Roadmap

4 Train

Establish the new way of thinking & handling business on all levels

Step 3: Split out the process to departments & identify subtasks

Here you can see some examples:
